Study: Understanding automated security alerts on a hospital network
Team: Malika Balaji, Nehaa Prabhu, Rohith Pranov, Sanhit Muthuswamy, Rakshan V. P.
School of Computer Science and Engineering, Vellore Institute of Technology

ABOUT THE STUDY

You will read 20 short notes written by a computer system that monitors network traffic to medical devices, and answer a few questions about each. It takes about 25 minutes. No machine-learning or networking background is needed. We are testing whether the notes are understandable, not testing you.

PLEASE TICK EACH BOX

- [ ] I have read the information above and had the chance to ask questions.
- [ ] I understand that taking part is voluntary and that I can stop at any time without giving a reason, in which case my answers are discarded.
- [ ] I understand that my answers are stored under a code, not my name, and will be reported only as group statistics in a course report and a possible research paper.
- [ ] I confirm that I am 18 or older.
- [ ] I agree to take part.
